DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claim 1 recites, inter alia, "An auto-recovery wafer testing method comprising an auto-recovery data generating step, wherein, if the first testing step is accidentally interrupted, auto-recovery data are generated based on the testing data that is saved, and second testing step for continuing the testing, based on the auto-recovery data, from a chip being last but incompletely tested."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Cabezas et al. (U.S. 6,745,345) disclose a Method for testing a computer bus using a bridge chip having a freeze-on-error option and Keevill et al. (U.S. 6,687,315) disclose a Single chip VLSI implementation of a digital receiver employing orthogonal frequency division multiplexing, they do not disclose the above-mentioned limitations.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
